

ADVANTAGES		APPLICATIONS	
1	HIGH PERFORMANCE AND VERSATILE	<p>Sustain your cards on a daily basis and in the long-term. Thanks to Tattoo RW, the card becomes a reusable medium and a dynamic means of communication. Tattoo RW allows you to have the information on your cards, whether printed or encoded evolve in a few seconds. The available options and settings allow it to adapt to the majority of people!</p>	<p>> With its 300 dpi resolution and its large printing surface, Tattoo RW allows you to print images, texts and barcodes of a greater quality. According to your application, all you want to show becomes clearly visible. Tattoo connects in USB or Ethernet from the standard model.</p>
			<p>> Personalise the way it is used according to your needs: the cards can be automatically or manually inserted and ejected. Whether a personalisation by the unit or limited series production are involved, Tattoo RW will know how to adapt very simply.</p>
			<p>> A system to automatically adjust the thickness of the cards makes any manual adjustment redundant! The printer accepts cards from 0.50 to 0.76 mm with no adjusting.</p>
			<p>> Tattoo RW offers a number of encoding possibilities. Contactless magnetic track and chip encoders can even be combined to issue highly sophisticated cards.</p>
2	ECOLOGICAL & ECONOMIC	<p>An initial investment offered at its lowest price, adapted applications and a rich and competitive card offer. Tattoo perfectly responds to the needs and expectations of those who wish to lower the cost per card to a minimum and who are looking for a solution concerned with the environment.</p>	<p>> Prolong the shelf life of your cards and maximise their use by reusing the same card up to 500 times. No more waste for applications that require a very short use (temporary staff, badges for events, etc.).</p>
			<p>> The lack of ribbon also reduces not only the printing cost per card but also the ecological impact by reducing waste linked to printing your cards.</p>
3	COMPACT & ERGONOMIC	<p>Thanks to its design, Tattoo RW finds its place in all types of environment. It is particularly adapted to receptions where it will instantly personalise loyalty cards, visitor badges or bus/train tickets.</p>	<p>> Tattoo RW isn't any bigger than a sheet of A4, and weighs less than 2.5 kg.</p>
			<p>> A new removable receptacle is provided with each machine, allowing printed cards to be collected and stored.</p>
			<p>> Tattoo benefits from proven and recognised shell opening and 100 rechargeable card loader concepts. Use and maintenance are thus easier, and notably cleaning and loading cards.</p>
4	RELIABLE AND RESISTANT	<p>Tattoo RW benefits from Evolis know-how and quality standards</p>	<p>> Tattoo RW benefits from Evolis concepts and technology. The hermetic loader has notably been specially designed to guarantee protection against dust and the cleanliness of the cards.</p>
			<p>> The printer and its printhead benefit from a two year ⁽¹⁾ manufacturing guarantee, additional proof of the Evolis commitment in the field of quality.</p>

⁽¹⁾ limited to 15.000 card insertions
