

## Securion advantages towards competitors

	<b>Advantages</b>	<b>Why is Evolis Securion a better solution for the end-user ?</b>
1	<b>HIGHLY FEATURED</b>	<ul style="list-style-type: none"> <li>⊙ Dual-sided printer AND laminator module from the very Basic version</li> <li>⊙ USB &amp; Ethernet delivered as standard</li> <li>⊙ 2-line LCD display, LED status lamp, Centralized key lock, Reject box</li> <li>⊙ Available options for Magnetic stripe encoder, Smart contact station with or without encoding unit and Contactless encoding unit. All kind of encoding features can be mixed together.</li> </ul>
2	<b>RELIABLE</b>	<ul style="list-style-type: none"> <li>⊙ Metal frame and Metal housing aiming at securing the printer life span</li> <li>⊙ Based on the Dualys dual-sided printing engine, which has a very good reputation on the card printer market</li> <li>⊙ 2-Year warranty for both printer &amp; lamination modules, print head and hot roller limited to 100,000 cards inserted</li> </ul>
3	<b>USER FRIENDLY</b>	<ul style="list-style-type: none"> <li>⊙ One single key to secure the whole equipment makes its easy for the operator</li> <li>⊙ A two-color LED provides the user with an instant status: green for rated operation, red for warnings and errors</li> <li>⊙ The 2-Line LCD provides the user with clear status of the printer and the laminator. In addition, browsing the menu will give instant access to a set of applications and data related to the equipment's setting, operation and service.</li> <li>⊙ Since the lamination's parameters should be adjusted in a case by case, depending on cards, design and laminates, there is a function in the printer's driver to permit saving a custom configuration (config name, lamination parameters). Then it is really easy to retrieve a former adjustment and apply it again.</li> <li>⊙ You can select the ejection mode of the card: Front side Up, Front side Down so the cards can be sorted as you want (FIFO, LIFO)</li> </ul>
4	<b>HIGHLY SECURED BADGES</b>	<ul style="list-style-type: none"> <li>⊙ Securion offers a wide range of encoding features as standard option aiming at serving all the Security, ID and Government markets:               <ul style="list-style-type: none"> <li>3-tracks Magnetic stripe encoder HiCo/LoCo (ISO or JIS2).</li> <li>Smart Contact station</li> <li>Dual encoder for contact &amp; contactless chip incl. Smart contact station &amp; antenna</li> <li>All encoders combined together for highly secured badges</li> </ul> </li> <li>⊙ Rejected badges, Films, laminates and blank cards cannot be stolen thank to a centralized secured locker</li> <li>⊙ If activated by the application software, Securion is password protected. In that case, none else than the appointed staff may use the printer which will remain silent to any printing attempt.</li> </ul>
5	<b>COST EFFECTIVE</b>	<ul style="list-style-type: none"> <li>⊙ Securion provides the highest feature level from standard where competitors always offer options (Ethernet, Key lock, 100 cards output hopper capacity, LCD, ...)</li> <li>⊙ Securion laminates 1.0 mil patches on standard PVC cards (single side lamination), which makes the cost per card dropping by about 10 cents per card</li> <li>⊙ Using the Evolis Half panel ribbon makes Securion card personalization a very attractive solution: Dual-side YMC-K, single side YMCK – up to 40% savings on colour ribbon</li> </ul>
