What are the advantages of the Tattoo Rewrite compared to the competing products?

| | <i>Advantages</i> | <i>Why?</i> |
|---|-------------------------------|---|
| 1 | VERSATILE AND TALENTED | <ul style="list-style-type: none"> ⊙ With its 300 dpi standard resolution and large print area, the Tattoo Rewrite allows you to print best in class logos and pictures on top of texts and barcodes. According to your application, whichever you want to show becomes clearly visible ⊙ The printer accepts cards from 0.25 to 0.76 mm (10 to 30 mil) without any adjustment ⊙ A wide range of encoding features: Mag ISO / JIS2 and contactless smart card coupler can be combined to issue sophisticated cards |
| 2 | USER FRIENDLY | <ul style="list-style-type: none"> ⊙ The Windows driver and the one-button printer front panel make the Tattoo Rewrite easy to operate. The port monitor pops up printer status and incidents directly on your screen ⊙ The innovative clamshell opening system allows quick and easy maintenance of the printhead and cleaning rollers ⊙ If required, the printhead can be replaced in a snap with no tools nor additional adjustments |
| 3 | POWERFUL CARD HANDLING | <ul style="list-style-type: none"> ⊙ The Tattoo Rewrite offers a permanent dual feeding mode: the next card to be printed can be taken either from the front mouth or from the rear side card feeder ⊙ Completely enclosed, the card feeder is dust proof and keeps the cards in a dry and clean environment ⊙ Constant pressure prevents the cards from jamming in the printer |
| 4 | ASTUTE | <ul style="list-style-type: none"> ⊙ The accurate printhead management limits the overall temperature, ensuring durability and easy handling of the cards ⊙ The driver allows to define erasing and non erasing areas, for instance to prevent heating on a chip |
| 5 | COST EFFECTIVE | <ul style="list-style-type: none"> ⊙ The absence of ribbon, the reusability of the cards (up to 500 times) and its price positioning makes the Tattoo Rewrite the most cost effective printer in its category! |
