

KEY BENEFITS		FEATURES
1	SIMPLE & USER-FRIENDLY	<p>Both the printer and the software have been designed with user needs in mind. Tattoo is therefore very easy to install and to use.</p> <ul style="list-style-type: none"> > The driver provided is already configured for immediate and simple use. An easy set-up wizard leads the user to install the printer in a few clicks. And of course, Tattoo operates under all Windows softwares. Each user can choose his own application to design his cards. > Tattoo benefits from the market-proven concepts of clamshell opening and detachable card feeder which ease daily use and maintenance: cleaning, ribbon change and cards loading. > The transparent cover enables to follow the printing process, and cards are delivered printed side up in order to check the result at a glance.
2	A COMPACT, LIGHT & ERGONOMIC DESIGN	<p>Tattoo is the most compact printer in its category ! It can fit in any location. Easy to carry, it is also ideal for over-the-counter and itinerant applications.</p> <ul style="list-style-type: none"> > Tattoo has only the footprint of an A4 page, with optimized dimensions: 166 x 290 x 187 mm (6.53" x 11.42" x 7.36"). The most compact printer in its category ! > Tattoo weighs only 2.4 kg (5.3 lbs). The lightest printer in the market ! > In addition to this space-saving shape, Tattoo benefits from a modern design with fine white plastic base enclosure and a dynamic 'Fire Red' cover.
3	AN AFFORDABLE AND COST-EFFECTIVE SOLUTION	<p>Tattoo is the perfect solution for small businesses and organizations which require occasional and small batches of prints: a low initial investment, a premium quality and a competitive ribbon offer.</p> <ul style="list-style-type: none"> > Tattoo is the single-sided color card printer the most affordable in the market ! > A special bundle has been designed for those want to benefit from a 'Ready to print' solution including the Tattoo printer, 100 cards, a colour ribbon and an eMedia Card Designer Standard Edition Unlimited version. > Tattoo is equipped with the Evolis Ribbon Saver for monochrome printing which allows to adjust the length of ribbon used and to maximize the capacity of the ribbon.
4	FLEXIBLE	<p>Expedient for both monochrome and color printings, Tattoo offers a variety of options and accessories in order to match all requirements.</p> <ul style="list-style-type: none"> > Tattoo is designed to allow single card printing or small batches, reaching a printing speed of 40 seconds per card. > Card loading and reception can be customized for an automatic process and a manual single-card feeding and reception. The manual options allows to personalize cards individually and suits perfectly over-the-counter applications which require instant delivery of badges, by the unit. > A new and detachable output hopper is provided in order to get the cards and hold up to 15 printed cards. > The card feeder is also available as an accessory, which makes possible to stock several feeders with different backgrounds themes and/or thicknesses.
5	RELIABLE & SOLID	<p>Tattoo benefits from the Evolis' know-how and quality standards in terms of reliability and robustness.</p> <ul style="list-style-type: none"> > A 300 dpi standard resolution for full color printings. Tattoo is ideal for identification and membership badges (picture, texts and logo). > Tattoo is based on the same proven concepts and technologies as the Evolis standard printer range. For example, the airtight 100 card-feeder is specially designed to protect the cards from dust, and ensure a perfect loading of the cards thanks to a permanent pressure on the cards whatever the number of cards is.
