

## GENERIC HOLOGRAM TRANSFER RIBBON

### Product Information

- Holographic Transfer ribbon
- 1 panel (generic hologram design)

## HIGH SECURED CARDS WITH RETRANSFER TECHNOLOGY

Evolis transfer Film is required to print cards with Evolis Retransfer Printers.

Generic hologram transfer film is a varnish with registration marks to line-up sheet materials for printing.

### Black Registration Marks

### Full panels (length: 98 mm)

The holographic transfer film allows the application of a hologram (an optical variable design) on card in a form of a transparent layer. Thanks to this film you add security to your cards. A hologram is not possible to duplicate and simplifies the examination process.

## ADVANTAGES

Your cards are protected against forgeries and falsification.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

## GENERAL SPECIFICATIONS

### Features:

- For single or dual-sided retransfer printing
- Holographic varnish ribbon in PET with thin layer of specialized coatings
- 1 whole panels 98 mm length
- Printing lifespan: up to 3 years
- Compatible with PVC and composite cards
- For retransfer technology
- Not compatible with YMCCK ribbon

### Generic Hologram:

Once opened, lifetime of 6 months, if stored under cool, dry conditions. Avoid dust and direct sunlight.

## CUSTOM HOLOGRAM SOLUTION

Generic hologram are not recommended for high security card programs. Adding security to your badge can require designing a custom hologram film. In addition to this generic offer, Evolis proposes a Custom Hologram Solution. Managed as a special project at Evolis, this film will be designed according to your requirements and will only be sold to you.

Customized hologram will help you to reach a significant security level thanks to the different security features and thanks to its unique design to protect the data against falsification. Any attempt of forgery will therefore become very obvious and visible.
